Summary:

Highly skilled and passionate Software Application Developer and Arduino Programmer with over 4 years of experience in designing and developing robust, scalable, and user-friendly applications. Strong expertise in full-stack web development and mobile App (Android and iOS), utilizing a wide range of programming languages, frameworks and troubleshooting Arduino-based projects. Dedicated and experienced Arduino Programmer with a passion for creating innovative solutions using Arduino microcontrollers. Committed to delivering innovative solutions that meet client needs and enhance user experiences. Adept at collaborating with cross-functional teams and staying up-to-date with the latest industry trends and technologies.

Experience:

Infoscert Xpression Streams Ltd

2022 (currently working)

Software Application Developer

- Collaborated with a team of developers to design, develop, and deploy software applications for various clients.
- Participated in the entire software development life cycle, from requirements gathering and system analysis to testing, deployment, and maintenance.
- Developed clean, efficient, and reusable code using [HTML, CSS, Bootstrap, UI/UX, PHP, JavaScript, Dart], also WordPress and [Lavaral, Codeigniter, Flutter, API, Jira, Postman].
- Integrated third-party APIs and services to enhance application functionality and data integration.
- Conducted code reviews and implemented quality assurance measures to ensure high-performance and bug-free applications.
- Collaborated with UI/UX designers to create intuitive and visually appealing user interfaces.

- Resolved complex technical issues and optimized application performance through performance tuning and optimization techniques.

Edmoss Global Limited

2018 – 2022

Software Developer and Arduino Programmer

- Participated in the entire software development life cycle, from requirements gathering and system analysis to testing, deployment, and maintenance.
- Developed clean, efficient, and reusable code using [HTML, CSS, Bootstrap, UI/UX, PHP, JavaScript, Dart], also WordPress and [Lavaral, Codeigniter, Flutter, API, Jira, Postman].
- Designed and developed Arduino-based projects, including sensor interfacing, automation systems, and IOT applications.
- Collaborated with UI/UX designers to create intuitive and visually appealing user interfaces.
- Conducted code reviews and implemented quality assurance measures to ensure high-performance and bug-free applications.
- Programmed Arduino boards using the Arduino IDE and C/C++ programming languages.
- Integrated various sensors, actuators, and communication modules into Arduino projects

Hot Star Computer College / Café

2015 – 2017

Computer Operator

Skills:

Programming Languages: [PHP, JavaScript, Dart, Python, Arduino Programming, c/c++]

Frameworks and Technologies: [CodeIgniter, Laravel, React.js, Express.js, Node.js, Python, Flutter]

Database Management: [MySQL, Firebase (Cloud Firestore)]

Web Development: [HTML, CSS, Bootstrap, JavaScript, UI/UX, WordPress]

Version Control: [GIT]

Problem-solving and Troubleshooting

Strong Communication and Collaboration Skills

Postman, REST API, Jira board, CMS Wordpress, Arduino Programming, Proteus software.

Arduino Programming, C/C++ programming, Circuit Design and Prototyping, Sensor Interfacing (e.g., temperature, humidity, motion, proximity).

Education:

- **Lagos State Polytechnic**

HND in Computer Science

September 2017 – December 2020

Ikorodu, Lagos State, Nigeria

- **Abraham Adesanya Polytechnic**

ND in Computer Science

September 2014 – November 2016

Ijebu-Igbo, Ogun State, Nigeria

- **Gaskiya Senior College**

NECO

September 2014 – November 2016

Ijebu-Igbo, Ogun State, Nigeria

Portfolio:

Web Development

Some of my previously worked Site URL:

<https://nok.org.ng/>

(Internet Service Provider System that help user subscribe for various internet plan)

<https://firstmultiplemfbank.com/>

(A Microfinance bank website still in development)

<https://members.csean.org.ng/>

(A Membership website for a Cyber Security Organization)

<https://appstaging.mygaphub.com/>

(A Financial System that keep record about your financial life)

<https://travelwheel.ng/>

(Travel consulting agency system)

<https://goldfieldsols.com/>

(A law firm website)

<https://lead-fortegatecollege.com/>

(School Website)

<https://christambassadors.net/>

(A ministry website for Children and Teenagers)

Mobile app

https://play.google.com/store/apps/details?id=com.infoscertdev.u_3Ds

(A devotional app)

<https://play.google.com/store/apps/details?id=com.prismcheck.GapHub>

(A Financial System that keep record about your financial life)

Certifications:

- **Udemy**

Figma Design Course

Oct. 27, 2022

I Built UI & UX Design for both mobile and web Design

I Built a website from Start to Finish

I Built a responsive web and Mobile view

- **Udemy**

Flutter 2.2 & Firebase, build a complete app from scratch

Jun. 15, 2022

I Built a fully functioning Flutter application with Firebase

I Built a Frontend design and styles application

I implement Streams and Future Builder

I implement Firebase Firestore and Authentication

I Also implement API to connect with the App

- **Udemy**

PHP for Beginners 2022: The Complete PHP

MYSQL PDO Course

Jun. 12, 2022

I Built a fully website with PHP

I understand the concepts of the database Management system

I was able to write a clean well-maintained code

Honors and Awards

Higher National Diploma in Computer Science (HND)

Distinction

Nov 2020

Ordinary National Diploma in Computer Science (OND)

Upper Credit

Nov 2016

Languages

- Fluent in English

Referee

Mrs Eshanokpe Racheal

Address: 62, Adejiyan street, Amokoko, Mosafejo, Apapa, Lagos.
